Infertility: Its Causes and Advances in Treatment

Professor Dr. Taher Abdel Rahim Shaheen

الجزء التاسع عشر

Part Nineteen | Final Surgical Plates

Arabic and English Review Edition

Scope

The six remaining illustrated pages in the supplied 90-page scan: PDF pages 79, 81, 83, 85, 87 and 89. They have no printed page numbers. Intervening blank pages are omitted.

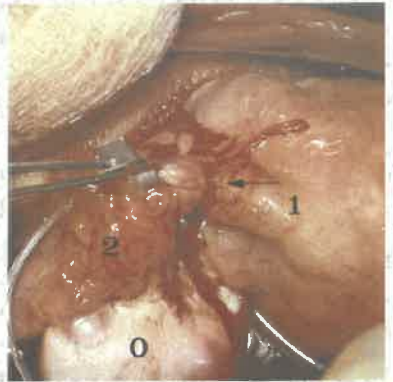

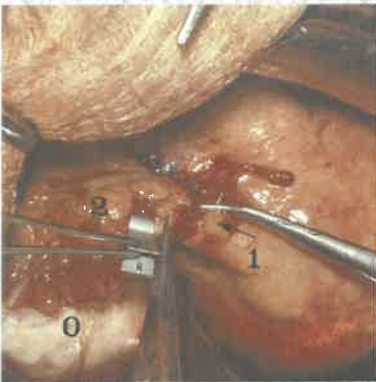

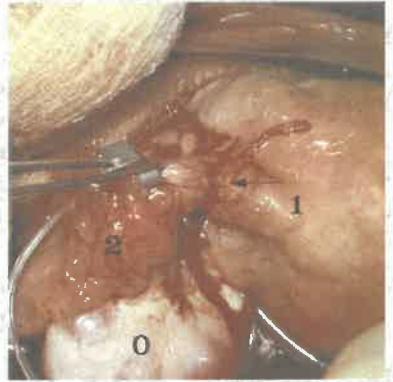

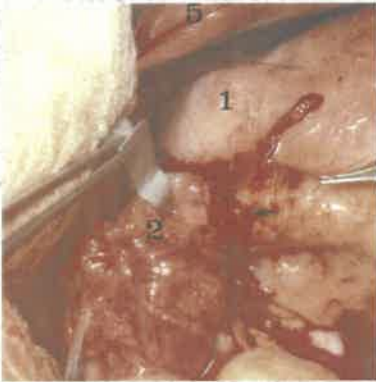

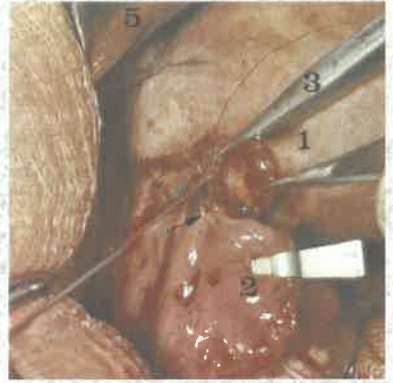

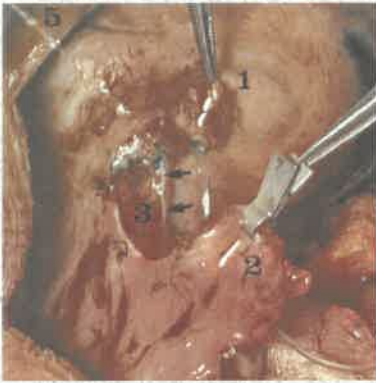

The original Arabic plates are preserved in sequence, each followed by a page reproducing the plate with an English translation of its heading. Numerical image labels are retained; the original supplies no explanatory key.

Editorial notes

The final two plates appear to repeat the same image sequence and heading. Both are retained. The phrase translated literally as “electron microscope” on three plates requires author clarification before publication; it has not been silently changed.

This part reaches the end of the supplied scan. It does not certify the completeness or scientific currency of translations in earlier parts.
